Subject: Compliance with European Parliament Directive 2011/65/EU - Restriction of Hazardous Substances (RoHS2)

Dear Valued Customer:

Part: \_\_\_\_\_

This letter is in response to a request your company made regarding compliance with European Parliament Directive 2011/65/EU (RoHS2).

All mill-finished drawn tube and extrusions produced by ALFINITI are compliant with the maximum concentration values identified in the directive.

The first three substances are not intentionally added and are chemically analyzed on every incoming raw material shipment and are certifiable below the specified limits. The next three substances are not part of any processing in our plant and are not analyzed for - we can certify their absence in our plant.

<b>Material/Substance</b>	<b>Threshold Level</b>	<b>Percent by Weight</b>
Lead and Lead Components	1000 PPM	0.1% by weight in homogeneous materials
Mercury and Mercury Compounds	1000 PPM	0.1% by weight in homogeneous materials
Cadmium and Cadmium compounds	1000 PPM	0.1% by weight in homogeneous materials
Hexavalent Chromium Compounds	1000 PPM	0.1% by weight in homogeneous materials
Polybrominated Biphenyls, PBBs	1000 PPM	0.1% by weight in homogeneous materials
Polybrominated Diphenyl ethers, PBDEs including deca-BDE	1000 PPM	0.1% by weight in homogeneous materials
