

Drawn Round Telescoping Tubing Standards

Alfiniti's telescoping tube standards control the outside diameter (OD) and inside diameter (ID) of each tube so there is no interference when trying to telescope one tube inside another.

The OD's are sized with a tolerance of +0.004" max, -0.000" and the ID's are sized with a tolerance of -0.004", + 0.000". All tubes have a 0.058" reference wall.

0.375" OD x 0.259" ID

0.500" OD x 0.384" ID

0.625" OD x 0.509" ID

0.750" OD x 0.634" ID

0.875" OD x 0.759" ID

1.000" OD x 0.884" ID

1.125" OD x 1.109" ID

1.250" OD x 1.134" ID

1.375" OD x 1.259" ID

1.500" OD x 1.384" ID
